

General Assembly

Distr.: General
19 December 2024

Seventy-ninth session

Agenda item 26 (b)

Social development: social development, including questions relating to the world social situation and to youth, ageing, persons with disabilities and the family

Resolution adopted by the General Assembly on 17 December 2024

[on the report of the Third Committee ([A/79/450](#), para. 39)]

79/149. Inclusive development for and with persons with disabilities

The General Assembly,

Recalling its resolution [77/189](#) of 15 December 2022 and its previous relevant resolutions, including those on all relevant internationally agreed development goals, as well as relevant resolutions of the Human Rights Council and of the Economic and Social Council and its functional commissions, and stressing the need for their full application and implementation for and with persons with disabilities, in order to ensure development for and with persons with disabilities,

Reaffirming the Convention on the Rights of Persons with Disabilities,¹ which it adopted on 13 December 2006 and which entered into force on 3 May 2008, a landmark convention affirming the human rights and fundamental freedoms of persons with disabilities, recognizing that it is both a human rights and a development instrument, encouraging its ratification by Member States and its implementation by States parties, and taking note of the Optional Protocol to the Convention on the Rights of Persons with Disabilities,²

Reaffirming also the 2030 Agenda for Sustainable Development,³ which is inclusive of persons with disabilities and in which Member States pledged to leave no one behind, and acknowledging that Member States, while implementing the 2030 Agenda, should, inter alia, respect, protect and promote human rights and fundamental freedoms for all, without discrimination of any kind,

¹ United Nations, *Treaty Series*, vol. 2515, No. 44910.

² Ibid., vol. 2518, No. 44910.

³ Resolution [70/1](#).

Welcoming the commitments made in the Pact for the Future⁴ to take bold, ambitious, accelerated, just and transformative actions to implement the 2030 Agenda, achieve the Sustainable Development Goals and leave no one behind, to enhance inclusion and eliminate all barriers that hinder persons with disabilities,

Recalling all development and operational frameworks in which persons with disabilities are recognized as both development agents and beneficiaries in all aspects of development,

Recalling also the Copenhagen Declaration on Social Development and the Programme of Action of the World Summit for Social Development,⁵ the outcome document of the United Nations Conference on Sustainable Development, entitled “The future we want”,⁶ the Sendai Framework for Disaster Risk Reduction 2015–2030, adopted at the Third United Nations World Conference on Disaster Risk Reduction,⁷ the Addis Ababa Action Agenda of the Third International Conference on Financing for Development,⁸ the outcome document of the high-level plenary meeting of the General Assembly known as the World Conference on Indigenous Peoples,⁹ the Charter on Inclusion of Persons with Disabilities in Humanitarian Action, launched during the first World Humanitarian Summit, the New Urban Agenda, adopted at the United Nations Conference on Housing and Sustainable Urban Development (Habitat III),¹⁰ the political declaration of the high-level meeting on universal health coverage, entitled “Universal health coverage: moving together to build a healthier world”,¹¹ the Programme of Action of the International Conference on Population and Development¹² and the Beijing Platform for Action,¹³ the outcome document of the 2016 high-level plenary meeting of the Assembly on HIV and AIDS, entitled “Political Declaration on HIV and AIDS: On the Fast Track to Accelerating the Fight against HIV and to Ending the AIDS Epidemic by 2030”,¹⁴ and the adoption of the 2021 political declaration on HIV and AIDS, entitled “Political Declaration on HIV and AIDS: Ending Inequalities and Getting on Track to End AIDS by 2030”,¹⁵ which contain references to the rights, participation, perspectives and well-being of persons with disabilities in development efforts,

Recalling further the Universal Declaration of Human Rights,¹⁶ the Convention on the Elimination of All Forms of Discrimination against Women,¹⁷ the Convention on the Rights of the Child,¹⁸ the International Convention on the Elimination of All Forms of Racial Discrimination,¹⁹ the International Convention on the Protection of

the Rights of All Migrant Workers and Members of Their Families²⁰ and all other relevant international human rights instruments,

Reaffirming the follow-up and review of progress in the implementation of the Sustainable Development Goals by the high-level political forum on sustainable development and the inclusion of persons with disabilities as stakeholders in its work, as set out in resolutions 67/290 of 9 July 2013 and 78/285 of 7 June 2024,

Noting the panel discussion organized by the President of the General Assembly held on 13 June 2016 to follow up on the status of and progress made towards the realization of the development goals for persons with disabilities in relation to the follow-up to the outcome of the high-level meeting on disability and development and to the principles of the Convention on the Rights of Persons with Disabilities,

Looking forward to the publication of the *Disability and Development Report 2024: Accelerating the Realization of the Sustainable Development Goals by, for and with Persons with Disabilities*, the executive summary of which presents an overview of the progress of the achievement of the Sustainable Development Goals for persons with disabilities, and the persistent gaps between persons with disabilities and without disabilities, particularly in the spheres of food security, health, access to energy, access to information and communications technology, multidimensional poverty and employment – gaps that are wider for women with disabilities, Indigenous persons with disabilities, persons with intellectual or psychosocial disabilities and persons with disabilities in rural areas – and proposes recommended actions for the effective implementation of the Convention on the Rights of Persons with Disabilities and the disability-inclusive achievement of the Sustainable Development Goals,

Recognizing that persons with disabilities make up an estimated 16 per cent of the world's population, or 1.3 billion people, of whom an estimated 80 per cent live in developing countries, and that persons with disabilities are disproportionately affected by poverty,

Welcoming progress towards mainstreaming disability, including the rights of persons with disabilities, in the work of the United Nations, and noting with appreciation the contributions of the Steering Committee on Accessibility and of the United Nations Partnership on the Rights of Persons with Disabilities, as well as the progress made in the implementation of the United Nations Disability Inclusion Strategy and the leadership of the Secretary-General to bring about transformative and systematic change on disability inclusion across the United Nations system,

Gravely concerned that persons with disabilities, including women, children, youth, persons with albinism, Indigenous Peoples and older persons, continue to be subject to multiple, aggravated and intersecting forms of discrimination, and noting that, while progress has already been made by Governments, the international community and the United Nations system in mainstreaming disability, in particular the rights of persons with disabilities, as an integral part of the development agenda, major challenges remain,

Concerned that women and girls with disabilities are often among the most vulnerable and marginalized in society and are at a greater risk of experiencing all forms of violence, and recognizing the need for national development strategies and efforts to promote gender equality and the empowerment of women and girls with disabilities, the elimination of all forms of violence and the realization of their human rights,

Recognizing that persons with disabilities are often disproportionately affected in situations of risk, including situations of armed conflict, humanitarian emergencies

²⁰ Ibid., vol. 2220, No. 39481.

and the occurrence of natural disasters and in their aftermath, and that they may require specific protection and safety measures, while recognizing also the need to support further participation and inclusion of persons with disabilities in the development of such measures and decision-making processes related thereto, as well as empowering them to publicly lead and promote universally accessible response, recovery, rehabilitation and reconstruction approaches, in order to ensure disability-inclusive risk reduction and humanitarian action, and recognizing further the special coping mechanisms developed by persons with disabilities to withstand, respond to and overcome the effects of armed conflict and natural disasters,

Recognizing also that children with disabilities may be particularly exposed and vulnerable to violence and discrimination that occurs through or is amplified by the use of technology, including cyberbullying, cyberstalking, sexual exploitation and abuse, which disproportionately impacts girls with disabilities, and that there is a need to take steps to ensure that the digital environment, including safety information, protective strategies, services and forums relating to it, is accessible, inclusive and safe,

Recognizing further the contribution of families towards ensuring the full enjoyment by persons with disabilities of all human rights and fundamental freedoms on an equal basis with others, and that persons with disabilities and their families should receive social protection and assistance to enable the family and its members to contribute towards the full and equal enjoyment of all human rights by persons with disabilities and to ensure a safe and supportive family environment for persons with disabilities,

Recognizing the collective responsibility of Governments to uphold the principles of human dignity, equality, non-discrimination and equity at the global level, and in this sense stressing the duty of Member States to achieve the full application and implementation of the international normative framework on persons with disabilities and human rights and development,

Concerned that access to healthcare services and assistive devices and technologies remains a challenge for persons with disabilities, who are more than three times as likely as persons without disabilities to be unable to obtain healthcare when they need it, especially women and girls with disabilities, owing to, inter alia, a lack of financial resources, inaccessible public transport and facilities and attitudinal and other environmental barriers,

Reaffirming the right of every human being, without distinction of any kind, to the enjoyment of the highest attainable standard of physical and mental health,

Recognizing the importance of addressing the specific needs, challenges and barriers of migrants with disabilities, including migrant workers with disabilities and those whose disabilities may have been acquired during migration, in gaining access to essential services at all stages of the migration cycle, and recognizing also that particular assistance and protection may be needed by migrants with disabilities,

Recognizing also that eliminating discrimination, ensuring equal access to social protection floors and safety nets, addressing additional disability-related costs in the design of social protection schemes, and enhancing responsive support and services to persons with disabilities are critical to promoting inclusive development for all,

Recognizing further that, while considerable progress has been made, the mainstreaming of disabilities, including the rights of persons with disabilities, remains a global challenge, and recognizing that further efforts are needed to strengthen the normative and operational links to effectively integrate the rights, inclusion, participation, perspectives and needs of persons with disabilities into

development policies and programmes, and, in particular, into the implementation of the 2030 Agenda,

Noting the need for Member States, the United Nations system and other stakeholders to further strengthen the normative framework on disability, including the rights of persons with disabilities, in line with the pledge of “leaving no one behind” of the 2030 Agenda, and to mainstream disability as an integral part of relevant strategies of sustainable development and consider disability as a global issue, cutting across the pillars of the United Nations,

Stressing its resolve to build inclusive societies and, in this regard, the importance of mainstreaming the rights, participation, perspectives, needs and well-being of persons with disabilities into all relevant strategies and programmes for sustainable development, and reaffirming the valued existing and potential contributions made by persons with disabilities to the overall well-being and diversity of their communities,

Recognizing the rights of persons with disabilities with respect to full, meaningful and effective participation and inclusion in society, and therefore recognizing also that persons with disabilities should have the opportunity to be actively involved in all aspects of public, political, economic, cultural, sports, social and family life, on an equal basis with all others, including in decision-making processes about policies and programmes, including national and international development programmes, as well as policies and actions to implement the 2030 Agenda, with a view to ensuring that such policies and programmes are inclusive of and accessible to persons with disabilities, bearing in mind that the full and equal participation of persons with disabilities of present and future generations in society is critical to ensuring that no one is left behind,

Recognizing also the role and contribution of persons with disabilities in sustainable and inclusive economic growth, including through micro-, small and medium-sized enterprises, and the importance of skills development training on micro-, small and medium-sized enterprises, including for persons with disabilities,

Underlining the need for urgent action by all stakeholders towards the adoption and implementation of more ambitious disability-inclusive national development plans, strategies and actions, backed by increased international cooperation and support,

Stressing the need for capacity development efforts aimed at empowering persons with disabilities and their representative organizations to ensure equal access to inclusive and equitable quality education and lifelong learning opportunities, full and productive employment and decent work on an equal basis and without discrimination to persons with disabilities, including by promoting access to inclusive education systems, skills development, including digital literacy, volunteering opportunities and vocational and entrepreneurial training in order to enable persons with disabilities to attain and maintain maximum independence and reach their full potential,

Recognizing the importance of promoting accessibility, mobility and road safety for persons with disabilities in the context of cities and other human settlements, and that accessibility is a means of achieving inclusive societies and development,

Recognizing also the growing contribution of sport to the realization of development and peace, and stressing that major international sporting events, such as the international Paralympic Games, should be organized in the spirit of peace, mutual understanding, friendship and tolerance, where persons with disabilities have an opportunity to organize, develop and participate in disability-specific sporting and recreational activities, on an equal basis with others, and where the spirit of fair play prevails, violence is banned and ethical principles are upheld,

Concerned that the continuing lack of available, accessible, high-quality, timely and reliable statistics, data and information on the situation of persons with disabilities at the national, regional and global levels contributes to their exclusion in official statistics, presenting an obstacle to achieving sustainable development planning and implementation of policies and programmes that are inclusive of persons with disabilities, recognizing that high-quality, timely, accessible, reliable and disaggregated data are critical to measuring progress and ensuring that no one is left behind, and further noting the need for enhancing capacity-building support to developing countries, including the least developed countries and small island developing States, to increase significantly the availability of such data, including through information and communications technologies and systems,

Stressing the importance of collecting and analysing reliable data on persons with disabilities following existing guidelines on disability statistics,²¹ and their updates, encouraging ongoing efforts to improve data collection in order to disaggregate data with regard to persons with disabilities by sex, age and disability, and underlining the need for internationally comparable data, such as but not limited to the United Nations Children's Fund Module on Child Functioning and the tools and materials produced by the Washington Group on Disability Statistics, to assess progress on development policies that are inclusive of persons with disabilities,

Concerned that the lack of high-quality data required to provide viable baselines and measure progress towards the Sustainable Development Goals for persons with disabilities poses a significant challenge to effectively monitor the implementation of the 2030 Agenda for persons with disabilities, and in this regard welcoming the call for the disaggregation of data by disability in the 2030 Agenda, which recognizes the need to significantly increase the availability of high-quality, accessible, timely and reliable data to measure progress in the implementation of the Goals for persons with disabilities,

1. *Takes note with appreciation* of the report of the Secretary-General, entitled "Inclusive development for and with persons with disabilities", on the implementation of General Assembly resolution [77/189](#);²²

2. *Expresses appreciation* to Member States and United Nations entities that have submitted information on progress made towards the realization of the internationally agreed development goals, including on specific priorities for action, and data and analysis on persons with disabilities, and urges Member States and relevant United Nations entities to submit information for inclusion in the report of the Secretary-General on the implementation of the present resolution;

3. *Recalls* Human Rights Council resolution [26/20](#) of 27 June 2014,²³ in which the Council established the mandate of the Special Rapporteur on the rights of persons with disabilities, which included making concrete recommendations on how to better promote and protect the rights of persons with disabilities, how to promote development that is inclusive of and accessible to persons with disabilities and how to promote their roles as both agents for and beneficiaries of development;

4. *Welcomes* the inclusion of persons with disabilities in the 2030 Agenda for Sustainable Development, and recognizes that their participation is integral to the full and inclusive implementation of the Sustainable Development Goals;

²¹ Such as the *Guidelines and Principles for the Development of Disability Statistics* (United Nations publication, Sales No. E.01.XVII.15) and the *Principles and Recommendations for Population and Housing Censuses* (United Nations publication, Sales No. E.07.XVII.8).

²² [A/79/372](#).

²³ See *Official Records of the General Assembly, Sixty-ninth Session, Supplement No. 53 (A/69/53)*, chap. V, sect. A.

5. *Expresses appreciation* to Member States and United Nations entities that have drafted strategies outlining their way forward in implementing and monitoring the implementation of the 2030 Agenda or are in the process of doing so, and encourages States, with the support of relevant stakeholders, to encourage the participation of persons with disabilities in the design and implementation of these strategies and ensure that the strategies are inclusive of persons with disabilities and respect, protect and promote their rights, bearing in mind the Convention on the Rights of Persons with Disabilities;

6. *Urges* Member States, United Nations agencies, international and regional organizations, regional integration organizations and financial institutions to make a concerted effort to include persons with disabilities and to integrate the principles of non-discrimination, accessibility and inclusion into the monitoring and evaluation of the Sustainable Development Goals;

7. *Urges* Member States, United Nations agencies and other stakeholders, in cooperation with women and girls with disabilities, including through their representative organizations, to design and implement policies and programmes to fulfil the rights of women and girls with disabilities, and to ensure that the implementation of the 2030 Agenda is inclusive of and accessible to women and girls with disabilities;

8. *Also urges* Member States, United Nations agencies and other stakeholders, in cooperation with persons with disabilities, including through their representative organizations, to design and implement policies and programmes to fulfil the rights of persons with disabilities, including through developing, reviewing and strengthening inclusive policies to address the historical, structural and underlying causes and risk factors of violence against persons with disabilities, in particular women and girls with disabilities, and to ensure that the implementation of the 2030 Agenda is inclusive of and accessible to persons with disabilities;

9. *Calls upon* States to take all measures necessary to ensure the full enjoyment by children with disabilities of all human rights and fundamental freedoms on an equal basis with other children, with the best interests of the child as a primary consideration in all actions concerning children with disabilities;

10. *Encourages* Member States, the United Nations system and other stakeholders to foster cooperation and to further improve coordination among existing international processes and instruments in order to advance a disability-inclusive global agenda and to facilitate cross-learning and the sharing of information, practices, tools and resources that are inclusive of and accessible to persons with disabilities;

11. *Reaffirms* that social integration and economic policies should seek to reduce inequalities, promote access to basic social services, education, lifelong learning opportunities for all and healthcare services, including for mental health and psychosocial well-being, eliminate discrimination, increase the participation, and integration and inclusion of social groups, particularly persons with disabilities, and address the challenges posed to social development by globalization and market-driven reforms in order for all people in all countries to benefit from globalization;

12. *Affirms* that persons with disabilities, including children, have the right to education, and urges Member States to ensure full access to inclusive and equitable quality education and lifelong learning opportunities, including distance learning, for persons with disabilities on an equal basis with others and without discrimination, by taking appropriate steps through the provision of information in accessible and alternative communication formats, reasonable accommodation and other support, such as assistive devices and technologies, as required;

13. *Emphasizes* the importance of mainstreaming the rights, participation, perspectives and needs of persons with disabilities into disaster risk reduction and response, recognizing the need for their inclusion in and contribution to disaster preparedness, emergency response, recovery, rehabilitation, reconstruction and the transition from relief to development, as well as the implementation of policies and programmes that are inclusive of and accessible to persons with disabilities, and also recognizing the disproportionate impact of disasters on women and girls with disabilities;

14. *Encourages* Member States, the United Nations system and relevant stakeholders to support the empowerment, full, equal and meaningful participation and leadership of persons with disabilities in the planning, consultation and decision-making processes on disaster risk reduction, climate change adaptation and mitigation, and other climate change policies and programmes, and recognizing the heightened risks and disproportionate impact faced by persons with disabilities, in particular women and girls with disabilities, in the context of climate change, environmental degradation, pollution and other environmental damage;

15. *Also encourages* Member States, the United Nations system and relevant stakeholders, including civil society and the private sector, to ensure participation of persons with disabilities, including through their representative organizations, in the strengthening of ongoing efforts, coordination and decision-making processes in the humanitarian, disaster and development spheres towards disability-inclusive disaster risk reduction and humanitarian action, especially those relating to the development of early warning systems and in emergency preparedness, planning and, as appropriate, response, and in climate change adaptation, so as to strengthen resilience, better mitigate risks and support pathways towards recovery and development and to establish partnerships and networks in the disaster risk reduction and humanitarian domains, while ensuring that protection mechanisms in emergency and post-crisis contexts are in place to prevent and respond to risks of persons with disabilities being exposed to violence, exploitation and abuse;

16. *Urges* Member States to ensure that persons with disabilities and their families, including women and girls, have access to a range of support services, information in accessible formats and education, including on how to prevent, recognize and report instances of exploitation, violence and abuse, as well as how to ensure that persons with disabilities, in particular children, have a safe and supportive family environment;

17. *Also urges* Member States to ensure affordable and accessible Internet for persons with disabilities, and to include them and their representative organizations at every stage of development of information and communications technologies, including with regard to telehealth, distance learning and remote work;

18. *Encourages* Governments, the private sector, international, regional and subregional organizations, civil society, the media, academia and research institutions and technical communities and individuals to strengthen international cooperation on the use of digital technologies, including artificial intelligence capacity-building, and take necessary and positive steps, as appropriate, to eliminate barriers faced by all people, especially persons with disabilities, in their ability to utilize and benefit from digital technologies on an equitable basis with others;

19. *Encourages* the mobilization of resources on a sustainable basis to mainstream disability, including the rights of persons with disabilities, into development at all levels, and in this regard underlines the need to promote and strengthen international cooperation, including North-South, South-South and triangular cooperation, in support of national efforts, including, as appropriate,

through the establishment of national mechanisms, in particular in developing countries;

20. *Encourages* Member States, United Nations organizations and mechanisms, including the Special Rapporteur on the rights of persons with disabilities, the Special Envoy of the Secretary-General on Disability and Accessibility and the regional commissions, to make all efforts to engage with and ensure accessibility for the full and effective participation and inclusion of persons with disabilities, in cooperation with organizations of persons with disabilities and, as appropriate, national human rights institutions, in development processes and decision-making at the local, national, regional and international levels;

21. *Encourages* the Commission for Social Development, within its mandate, to continue to provide its relevant input regarding persons with disabilities to the Economic and Social Council and to the high-level political forum on sustainable development, as appropriate, in order to support the relevant discussions on persons with disabilities in the follow-up to the 2030 Agenda;

22. *Encourages* Member States that have not yet done so to adopt a national disability strategy that can be operationalized, including through measurable and appropriate targets and indicators, and that assigns responsibility to and incorporates the views of a broad range of stakeholders, including persons with disabilities and their representative organizations;

23. *Calls upon* Member States, relevant regional organizations and United Nations bodies and agencies to take into account the rights, participation, inclusion, perspectives and needs of persons with disabilities on an equal basis with others in ensuring that all development policies and programmes, including those regarding poverty eradication, discrimination and the elimination of all forms of violence and abuse, particularly against women and girls with disabilities, social protection, inclusive and equitable quality education and basic services, full and productive employment and decent work, and appropriate measures for financial inclusion, as well as urban and rural planning and accessible community and housing development, including the objectives and principles of the Convention on the Rights of Persons with Disabilities and the goals of the 2030 Agenda, are translated into concrete actions;

24. *Encourages* Member States, international development institutions and other stakeholders, including those in the private sector, to promote accessibility, including through the application of universal design in all aspects of urban and rural development, including the planning, design and construction of physical and virtual environments, public spaces, transportation and public services, as well as to promote access to and the accessibility of information and communication, including information and communications technologies and systems, and assistive devices and technologies, and to ensure that accessibility is promoted to achieve inclusive societies and development;

25. *Encourages* Member States to eliminate barriers faced by persons with disabilities in accessing water, sanitation and hygiene, including physical, institutional, social and attitudinal barriers, and recognizing that assistive technologies help in making water, sanitation and hygiene accessible;

26. *Calls upon* Member States and other stakeholders to include persons with disabilities in all stages of policymaking and decision-making related to coronavirus disease (COVID-19) response and recovery and future and public health emergencies, as well to eliminate barriers and discrimination against persons with disabilities, in particular women and girls with disabilities, and those in vulnerable situations, in accessing support and healthcare services on an equal basis with others, and to prevent, monitor and address the disproportionate effects of the pandemic on persons

with disabilities, including the lack of accessible communications, support and services, as well as the unique challenges and barriers that they will face following the end of the pandemic;

27. *Urges* Member States to ensure that persons with disabilities have access to assistive technologies, rehabilitation and independent living support services, including in-home, residential, educational institution and other community support services, to enable them to maximize their well-being and realize their independence and full participation in society and to prevent isolation and segregation from the community, and in this regard encourages Member States to promote the inclusion of persons with disabilities and their representative organizations in designing and implementing independent living support services for persons with disabilities;

28. *Urges* Member States and regional and local governments to promote appropriate measures in cities and other human settlements that facilitate the access of persons with disabilities, on an equal basis with others, to the physical environment of cities, in particular to public spaces, public transport, housing, workplaces, water and sanitation, education and health facilities, public information and communication (including information and communications technologies and systems) and other facilities and services open or provided to the public in both rural and urban areas to reduce the inequalities and expedite inclusive and sustainable development for persons with disabilities;

29. *Calls upon* Member States to enhance efforts to facilitate international trade of assistive technologies, in line with their international trade agreements, to address inequalities experienced by persons with disabilities and to promote the local production of and capacity-building initiatives for assistive products, especially in developing countries, including through research and development, and to foster greater accessibility to, as well as affordability and efficacy of assistive products in line with the goals of disability-inclusive development;

30. *Urges* Member States, at the local, regional and national levels, to improve road safety for persons with disabilities and to integrate road safety into sustainable mobility and transport infrastructure planning and design in cities and other human settlements;

31. *Stresses* the importance of enabling persons with disabilities to participate on an equal basis with others in recreational, leisure and sporting activities and of promoting sports for athletes with disabilities, without discrimination of any kind;

32. *Welcomes* the contributions made to the trust fund for the United Nations Partnership on the Rights of Persons with Disabilities, and in this regard encourages Member States and other stakeholders to support its objectives, including by providing voluntary contributions;

33. *Requests* the United Nations system to facilitate technical assistance, within existing resources, including the provision of assistance for capacity-building and for the collection and compilation of national data and statistics on persons with disabilities, in particular to developing countries, and in this regard requests the Secretary-General, in accordance with existing international guidelines on disability statistics, to analyse, publish and disseminate disability data and statistics in future periodic reports, as appropriate, on the realization of the Sustainable Development Goals and other internationally agreed development goals for persons with disabilities;

34. *Encourages* the Statistical Commission, within existing resources, to update guidelines for the collection and analysis of data on persons with disabilities, taking into consideration relevant recommendations of the Washington Group on Disability Statistics, and also encourages the United Nations system, including the Special Rapporteur on the rights of persons with disabilities, within the scope of her

mandate, to strengthen coherence and coordination across the United Nations system in order to promote the availability of internationally comparable data on the situation of persons with disabilities and to regularly include relevant data on disability or relevant qualitative facts, as appropriate, in relevant United Nations publications in the field of economic and social development;

35. *Encourages* Member States to take appropriate steps to expedite the mainstreaming of data on disability into official statistics, including by collecting data disaggregated by sex, age and disability status using appropriate measurement tools, including, as appropriate, the United Nations Children's Fund Module on Child Functioning and the tools produced by the Washington Group on Disability Statistics, by examining underlying concepts, purposes and advantages of existing relevant data-collection tools and instruments and urging all relevant stakeholders to work with the United Nations to provide urgently needed baseline data for monitoring progress in the implementation of the Sustainable Development Goals for persons with disabilities, to strengthen national capacities in that regard and to enhance capacity-building support for developing countries, including the least developed countries and small island developing States;

36. *Recognizes* the importance of undertaking discussions relevant to persons with disabilities in the Commission for Social Development and of the continued inclusion of persons with disabilities and their representative organizations in the meetings of the Commission;

37. *Requests* the Secretary-General, in coordination with relevant United Nations entities, to compile and analyse international, regional and national policies, programmes, best practices and available statistics regarding persons with disabilities, reflecting progress made in the implementation of the 2030 Agenda for Sustainable Development and the provisions of the Convention on the Rights of Persons with Disabilities, to submit this analysis in a flagship report in 2030, within existing resources, and with the participation of persons with disabilities, including through their representative organizations, in both the collection and analysis of data;

38. *Requests* the Secretary-General to submit to the General Assembly at its eightieth session a progress report on steps taken by the United Nations system towards mainstreaming disability inclusion, including implementation of the United Nations Disability Inclusion Strategy, within existing resources, and to envisage the financial sustainability of the United Nations system-wide coordination and monitoring activities of the Strategy, and encourages the United Nations system, including its agencies, funds and programmes, within their respective mandates, to continue to work collaboratively to accelerate the full and effective mainstreaming of disability inclusion, including by implementing the Strategy in the United Nations system, and report on it;

39. *Requests* the Secretary-General, in coordination with all relevant United Nations entities, to submit information to the General Assembly at its eighty-first session on the implementation of the present resolution and of the outcome document of the high-level meeting of the Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities: the way forward, a disability-inclusive development agenda towards 2015 and beyond,²⁴ and to make appropriate recommendations to further strengthen implementation;

40. *Recognizes* the importance of continuing to improve accessibility and the full inclusion of persons with disabilities, including by ensuring that persons with disabilities have access, on an equal basis with others, to the physical environment,

²⁴ Resolution [68/3](#).

transportation, and information and communications technologies and systems, especially at United Nations Headquarters premises, also recognizes the need to promote employment opportunities and career advancement for persons with disabilities to work within the United Nations system, agencies, funds and programmes and regional offices, and to this end takes note with appreciation the work of the Steering Committee on Accessibility;

41. *Requests* the Secretary-General to continue to ensure that the relevant offices in the United Nations system, including the Office of the United Nations High Commissioner for Human Rights, the Department of Economic and Social Affairs of the Secretariat and other relevant offices, have adequate human and financial resources for the fulfilment of their tasks with respect to their work in mainstreaming the rights, participation, perspectives, needs and well-being of persons with disabilities into the 2030 Agenda, and in ensuring the inclusion of persons with disabilities in the decision-making processes that impact them.

*53rd plenary meeting
17 December 2024*
