

General Assembly

Distr.: General
18 December 2025

Eightieth session

Agenda item 18 (f)

Sustainable development: Convention on Biological Diversity

Resolution adopted by the General Assembly on 15 December 2025

[*on the report of the Second Committee (A/80/555, para. 7)*]

80/140. Implementation of the Convention on Biological Diversity and its contribution to sustainable development

The General Assembly,

Recalling its resolution [79/208](#) of 19 December 2024 and its previous resolutions relating to the Convention on Biological Diversity,¹

Reaffirming the outcomes of the United Nations Conference on Environment and Development, including the Rio Declaration on Environment and Development² and its principles, the outcome document of the United Nations Conference on Sustainable Development, entitled “The future we want”,³ and, *inter alia*, the commitments concerning biodiversity contained therein, the Programme for the Further Implementation of Agenda 21,⁴ the Johannesburg Declaration on Sustainable Development⁵ and the Plan of Implementation of the World Summit on Sustainable Development (Johannesburg Plan of Implementation)⁶ and the outcome document of the special event to follow up efforts made towards achieving the Millennium Development Goals convened by the President of the General Assembly,⁷

Reaffirming also its resolution [70/1](#) of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which

¹ United Nations, *Treaty Series*, vol. 1760, No. 30619.

² *Report of the United Nations Conference on Environment and Development, Rio de Janeiro, 3–14 June 1992*, vol. I, *Resolutions Adopted by the Conference* (United Nations publication, Sales No. E.93.I.8 and corrigendum), resolution 1, annex I.

³ Resolution [66/288](#), annex.

⁴ Resolution [S-19/2](#), annex.

⁵ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August–4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 1, annex.

⁶ *Ibid.*, resolution 2, annex.

⁷ Resolution [68/6](#).

it adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions – economic, social and environmental – in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming further its resolution [69/313](#) of 27 July 2015 on the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity,

Welcoming the convening of the Fourth International Conference on Financing for Development from 30 June to 3 July 2025 in Sevilla, Spain, and reaffirming its outcome document, the Sevilla Commitment, endorsed by the General Assembly in its resolution [79/323](#) of 25 August 2025, which sets forth a renewed global framework for financing for development, building on the 2015 Addis Ababa Action Agenda,⁸ to close with urgency the estimated annual 4 trillion United States dollar financing gap,⁹ and catalyse sustainable development investments at scale in developing countries and continue the reform of the international financial architecture through continued and strong commitment to multilateralism, international cooperation, and global solidarity,

Reaffirming the New Urban Agenda, adopted at the United Nations Conference on Housing and Sustainable Urban Development (Habitat III), held in Quito, Ecuador, from 17 to 20 October 2016,¹⁰ and its vision for cities and human settlements that protect, conserve, restore and promote their ecosystems, water, natural habitats and biodiversity and minimize their environmental impact, and looking forward to the convening of the thirteenth session of the World Urban Forum, to be held in Baku, from 17 to 22 May 2026, under the theme “Housing the world: safe and resilient cities and communities” as an important platform to advance the implementation of the New Urban Agenda,

Reaffirming also the Paris Agreement¹¹ and encouraging all its Parties to fully implement the Agreement, and Parties to the United Nations Framework Convention on Climate Change¹² that have not yet done so to deposit their instruments of ratification, acceptance, approval or accession, where appropriate, as soon as possible,

Welcoming the convening of the thirtieth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, to be held in Belém, Brazil, from 10 to 21 November 2025, and looking forward to the convening of the thirty-first session of the Conference of the Parties to the United Nations Framework Convention on Climate Change to be held in 2026,

⁸ General Assembly resolution [69/313](#), annex.

⁹ *Financing for Sustainable Development Report 2024* (United Nations publication, 2024), figure I.1.

¹⁰ Resolution [71/256](#), annex.

¹¹ Adopted under the UNFCCC in [FCCC/CP/2015/10/Add.1](#), decision 1/CP.21.

¹² United Nations, *Treaty Series*, vol. 1771, No. 30822.

*Noting with serious concern the findings from the Intergovernmental Panel on Climate Change in its special reports entitled *Global Warming of 1.5°C, The Ocean and Cryosphere in a Changing Climate* and *Climate Change and Land: An IPCC Special Report on Climate Change, Desertification, Land Degradation, Sustainable Land Management, Food Security, and Greenhouse Gas Fluxes in Terrestrial Ecosystems*, as well as the contribution of Working Groups I, II and III and the synthesis report of the Sixth Assessment Report of the Intergovernmental Panel on Climate Change, in which the Intergovernmental Panel highlights the linkages between climate change and extreme weather events and slow-onset events and their negative impacts on people and nature, and highlighting the increasing frequency and intensity of extreme weather events, such as heatwaves, droughts and heavy precipitation,*

Noting with profound concern the findings of the Intergovernmental Science Policy Platform on Biodiversity and Ecosystem Services Global Assessment Report on Biodiversity and Ecosystem Services,

Recalling the convening of the summit on biodiversity on 30 September 2020, in order to highlight the urgency of action at the highest levels in support of a global biodiversity framework that contributes to the 2030 Agenda and places the global community on a path towards realizing the 2050 Vision for Biodiversity, “Living in harmony with nature”,

Recalling its resolution [76/300](#) of 28 July 2022 on the human right to a clean, healthy and sustainable environment,

Welcoming the convening of the 2025 United Nations Conference to Support the Implementation of Sustainable Development Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development, co-hosted by Costa Rica and France, held in Nice, France, from 9 to 13 June 2025, at which its political declaration¹³ was adopted,

Taking note of voluntary initiatives and efforts to achieve the effective conservation and management of at least 30 per cent of terrestrial and inland water areas and of marine and coastal areas by 2030, which can further contribute to halt and reverse biodiversity loss,

Recalling its resolution [73/284](#) of 1 March 2019, in which it proclaimed 2021–2030 the United Nations Decade on Ecosystem Restoration, with the aim of supporting and scaling up efforts to prevent, halt and reverse the degradation of ecosystems worldwide and raise awareness of the importance of successful ecosystem restoration,

Recalling also the United Nations strategic plan for forests 2017–2030,¹⁴ and recognizing that forests are home to an estimated 80 per cent of all terrestrial species and that forests, including boreal, temperate and tropical, contribute substantially to climate change mitigation and adaptation and to the conservation of biodiversity,

*Recalling further the fifth edition of the *Global Biodiversity Outlook*, in which it was highlighted that none of the 20 Aichi Biodiversity Targets were fully achieved, although six were partially achieved (targets 9, 11, 16, 17, 19 and 20), and emphasizing the need for support and investments at all levels to enhance efforts for the implementation of the goals and targets of the Kunming-Montreal Global Biodiversity Framework,*

¹³ Resolution [79/314](#), annex.

¹⁴ See resolution [71/285](#).

Noting with concern that the Sustainable Development Goal targets with a 2020 deadline have not been fully achieved,

Recognizing that the coronavirus disease (COVID-19) pandemic and other pandemics underscore the need to conserve, restore and sustainably use biodiversity, on land and below water, to reduce the risk of the economic, social and environmental impacts of disasters and future pandemic outbreaks, many of which are exacerbated by biodiversity loss, the increased scale of poaching and the illegal use of and trade in wildlife and wildlife products, desertification, land degradation and drought, climate change and plastic pollution, including in the marine environment, and emphasizing the need to support and invest at all levels, to enhance efforts to build resilience, to reduce the likelihood of zoonotic infections and to avoid or minimize adverse impacts on biological diversity in order to achieve the objectives of the Convention on Biological Diversity and to achieve a sustainable, resilient and inclusive recovery,

Recalling with appreciation the intergovernmentally agreed outcomes of the meetings of the Conference of the Parties to the Convention on Biological Diversity and the meetings of the Conference of the Parties serving as the Meetings of the Parties to the Protocols to the Convention,

Recalling that the objectives of the Convention on Biological Diversity, to be pursued in accordance with its relevant provisions, are the conservation of biological diversity, the sustainable use of its components and the fair and equitable sharing of the benefits arising out of the utilization of genetic resources, including by appropriate access to genetic resources, by appropriate transfer of relevant technologies, taking into account all rights over those resources and to technologies, and by appropriate funding,

Recognizing that the achievement of the three objectives of the Convention on Biological Diversity is crucial for sustainable development, poverty eradication, food security and the improvement of human health and well-being, and a major factor underpinning the achievement of the Sustainable Development Goals and other internationally agreed development goals,

Reaffirming that, in accordance with the Charter of the United Nations, States have the sovereign right to exploit their own resources pursuant to their own environmental policies and the responsibility to ensure that activities within their jurisdiction or control do not cause damage to the environment of other States or of areas beyond the limits of national jurisdiction,

Reaffirming also the intrinsic value of biological diversity, as well as the ecological, genetic, social, economic, scientific, educational, cultural, recreational and aesthetic values of biological diversity, and its critical role in maintaining ecosystems that provide essential functions and services, which are critical foundations for sustainable development, and human health and well-being,

Encouraging Parties, other Governments and relevant organizations to integrate nature-based solutions, ecosystem-based approaches and other management and conservation approaches, in line with resolution 5/5 of 7 March 2022 of the United Nations Environment Assembly,¹⁵ to climate change adaptation and mitigation and disaster risk reduction into their strategic planning, as appropriate, across sectors,

Recognizing that the traditional knowledge, innovations and practices of Indigenous Peoples and local communities that are relevant to the Convention make

¹⁵ UNEP/EA.5/Res.5.

a key contribution to the conservation and sustainable use of biodiversity and that their wider application can support social well-being and sustainable livelihoods,

Recalling the decisions adopted by the Conference of the Parties to the Convention on Biological Diversity on article 8 (j) and related provisions, as well as the work done by the Ad Hoc Open-ended Intersessional Working Group on Article 8 (j) and Related Provisions of the Convention on Biological Diversity,

Recalling also the United Nations Declaration on the Rights of Indigenous Peoples¹⁶ and the outcome document of the high-level plenary meeting of the General Assembly known as the World Conference on Indigenous Peoples,¹⁷

Recognizing the vital role that women play in the conservation and sustainable use of biological diversity, and reaffirming the need for their full, equal, effective and meaningful participation at all levels of policymaking and implementation for the conservation and sustainable use of biological diversity, as well as ecosystem restoration,

Recognizing also the important role of other biodiversity-related multilateral environmental agreements, regional agreements and initiatives in contributing to the conservation and sustainable use of biodiversity,

Recognizing further the important role of the Convention on International Trade in Endangered Species of Wild Fauna and Flora¹⁸ in contributing to the conservation and sustainable use of biodiversity and in ensuring that no species entering into international trade is threatened with extinction, recognizing also the economic, social and environmental impacts of poaching and trafficking in wildlife,

Recalling the convening of the 2023 United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028, and looking forward to the 2026 United Nations Water Conference to Accelerate the Implementation of Sustainable Development Goal 6: Ensure availability and sustainable management of water and sanitation for all, to be co-hosted by Senegal and the United Arab Emirates and held in the United Arab Emirates from 2 to 4 December 2026,

Recognizing the importance of the outcomes of the sixth session of the United Nations Environment Assembly, held in Nairobi from 26 February to 1 March 2024, and looking forward to the seventh session of the United Nations Environment Assembly, to be held in Nairobi from 8 to 12 December 2025,

Welcoming the decision by the United Nations Environment Assembly at its resumed fifth session, in resolution 5/14 of 2 March 2022,¹⁹ to convene an intergovernmental negotiating committee to develop an international legally binding instrument on plastic pollution, including in the marine environment, and welcoming also the decisions taken by the Environment Assembly at its resumed fifth session to strengthen global action on the sound management of chemicals and waste and to prevent pollution, in line with Environment Assembly resolutions 5/2, 5/7 and 5/8 of 2 March 2022,²⁰

Welcoming also the convening of the sixteenth session of the Conference of the Parties to the United Nations Convention to Combat Desertification in Those

¹⁶ Resolution [61/295](#), annex.

¹⁷ Resolution [69/2](#).

¹⁸ United Nations, *Treaty Series*, vol. 993, No. 14537.

¹⁹ [UNEP/EA.5/Res.14](#).

²⁰ [UNEP/EA.5/Res.2](#), [UNEP/EA.5/Res.7](#) and [UNEP/EA.5/Res.8](#).

Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, held in Riyadh, from 2 to 13 December 2024 under the theme “Our land, our future”, and the adoption of its decisions, and calling for their full implementation; and looking forward to the convening of the seventeenth session of the Conference of the Parties, to be held in Ulaanbaatar, from 17 to 28 August 2026,

Noting the adoption by the Conference of the Parties to the Convention on Biological Diversity, at its tenth meeting, of the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from Their Utilization to the Convention on Biological Diversity,²¹ the objective of which is the fair and equitable sharing of the benefits arising from the utilization of genetic resources, including by appropriate access to genetic resources and by appropriate transfer of relevant technologies, taking into account all rights over those resources and to technologies, and by appropriate funding, and acknowledging the role of access to genetic resources and equitable benefit-sharing arising from their utilization in contributing to the conservation and sustainable use of biological diversity, poverty eradication and environmental sustainability, and thereby to the achievement of sustainable development,

Noting also that 195 States and 1 regional economic integration organization are Parties to the Convention and that 141 States and 1 regional economic integration organization are Parties to the Nagoya Protocol, noting further that 172 States and 1 regional economic integration organization are Parties to the Cartagena Protocol on Biosafety to the Convention on Biological Diversity²² and that 54 States and 1 regional economic integration organization are Parties to the Nagoya-Kuala Lumpur Supplementary Protocol on Liability and Redress to the Cartagena Protocol on Biosafety,²³ and recalling the entry into force of the Nagoya-Kuala Lumpur Supplementary Protocol on 5 March 2018,

Stressing that adequate, predictable and easily accessible financial resources from all sources will be key to place the global community on a path towards realizing the 2050 Vision for Biodiversity of living in harmony with nature,

Reiterating the pledge that no one will be left behind, reaffirming the recognition that the dignity of the human person is fundamental, and the wish to see the Goals and targets met for all nations and peoples and for all segments of society, and recommitting to endeavour to reach the furthest behind first,

1. *Takes note* of the report of the Executive Secretary of the Convention on Biological Diversity,²⁴

2. *Invites* the Parties to the Convention to provide the Executive Secretary of the Convention with full support in the fulfilment of her mandate and in promoting the implementation of the Convention;

3. *Stresses* the urgent need to halt the global decline of biodiversity, which is unprecedented in human history, including its main indirect and direct drivers, in particular changes in land and sea use, direct exploitation of organisms, climate change, pollution and invasion of alien species;

4. *Notes* the findings of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services in its assessment report on the diverse values and valuation of nature, as well as in its subsequent assessment reports, and stresses

²¹ United Nations Environment Programme, document [UNEP/CBD/COP/10/27](#), annex, decision X/1.

²² United Nations, *Treaty Series*, vol. 2226, No. 30619.

²³ See United Nations Environment Programme, document [UNEP/CBD/BS/COP-MOP/5/17](#), annex, decision BS-V/11.

²⁴ [A/80/373](#), sect. III.

that achieving a sustainable and just future requires institutions that enable a recognition and integration of the diverse values of nature and nature's contributions to people, and that the transformative change needed to address the global biodiversity crisis relies on shifting away from predominant values that currently overemphasize short-term and individual material gains to nurturing sustainability-aligned values across society;

5. *Takes note* of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services assessment reports on the sustainable use of wild species and on invasive alien species and their control, and stresses that the impacts of invasive alien species are increasing rapidly and are predicted to continue rising in the future, whereas they can be prevented and mitigated through effective management, with closer collaboration across sectors and countries;

6. *Welcomes* the convening of the sixteenth meeting of the Conference of the Parties to the Convention on Biological Diversity, as well as the Meetings of the Parties to the Protocols to the Convention, held in Cali, Colombia, from 21 October to 1 November 2024, under the theme "Peace with nature", as well as of the two resumed sessions of the sixteenth meeting of the Conference of the Parties to the Convention held online from 3 to 6 December 2024 and in Rome, Italy, from 25 to 27 February 2025 and takes note of their adopted decisions, and looks forward to the seventeenth meeting of the Conference of the Parties and the meetings of the Conference of the Parties serving as the Meetings of the Parties to the Protocols to the Convention to be held in Yerevan, Armenia, from 18 to 30 October 2026;

7. *Also welcomes* the Kunming-Montreal Global Biodiversity Framework to contribute to the 2030 Agenda for Sustainable Development,²⁵ to the 2030 mission to halt and reverse biodiversity loss by 2030 and to place the global community on a path towards realizing the 2050 Vision for Biodiversity, and urges Parties and invites other Governments, with the support of United Nations entities and the participation of all other stakeholders, to ensure the early, inclusive and effective implementation of the Framework and all other decisions adopted by the Parties;

8. *Calls for* the provision and mobilization of new and additional means of implementation to support the full implementation of the Convention on Biological Diversity, and further emphasizes the importance of urgently increasing the mobilization of financial resources from all sources, domestic and international, public and private, with a view to closing the biodiversity financing gap and making adequate and predictable resources available in a timely manner for the effective implementation of the Kunming-Montreal Global Biodiversity Framework;

9. *Welcomes* the strategy for resource mobilization for the period 2025–2030, adopted at the sixteenth meeting of the Conference of the Parties to the Convention, for the implementation of the Convention and its Protocols, as well as the achievement of the goals and targets of the Kunming-Montreal Global Biodiversity Framework, and the decision to implement articles 21 and 39 of the Convention and to address the global biodiversity finance gap by 2030 by establishing the permanent arrangement for the financial mechanism envisioned under article 21 of the Convention and assessing and improving the mobilization of finance from all sources;

10. *Emphasizes* that the successful implementation of the Kunming-Montreal Global Biodiversity Framework requires responsibility and transparency, which will be supported by effective mechanisms for planning, monitoring, reporting and review, including through revising or updating national biodiversity strategies and action

²⁵ Resolution 70/1.

plans, in alignment with the Framework, its goals and its targets, in line with decisions 15/6, 16/31 and 16/32;

11. *Looks forward* to the global review of the collective progress in implementation of the Kunming-Montreal Global Biodiversity Framework, and recalls that Parties are requested to submit their seventh national report, in line with decision 16/32, and for those that have not yet done so, to revise or update their national biodiversity strategies and action plans in line with decisions 15/6 and 16/1;

12. *Requests* the continuation of efforts made by the secretariat of the Convention, Parties to the Convention and the Global Environment Facility, as the financial mechanism of the Convention, in conjunction with United Nations funds and programmes and the specialized agencies, as well as other entities, in organizing capacity-building activities to support countries in the updating of national biodiversity strategies and action plans, with a view to enhancing capacity and addressing the need for human, technical and financial resources to implement the Convention and the Kunming-Montreal Global Biodiversity Framework, in particular for developing countries;

13. *Welcomes* the establishment by the Global Environment Facility of the Global Biodiversity Framework Fund to support the implementation of the Kunming-Montreal Global Biodiversity Framework;

14. *Calls for* continued capitalization and timely operationalization of the Global Biodiversity Framework Fund commensurate with the targets of the Framework, from all sources, including, *inter alia*, international financial resources from developed countries, philanthropic organizations and the private sector, and to progress towards implementation as soon as possible;

15. *Acknowledges* the adoption of the decision on the modalities for operationalizing the multilateral mechanism for the fair and equitable sharing of benefits from the use of digital sequence information on genetic resources, and welcomes the launch of the global fund (referred to as the Cali Fund), at the sixteenth meeting of the Conference of the Parties to the Convention;

16. *Also acknowledges* the important roles and contributions of Indigenous Peoples and local communities as custodians of biodiversity and as partners in its conservation, restoration and sustainable use, stresses that the implementation of the Kunming-Montreal Global Biodiversity Framework must ensure that the rights, knowledge, including traditional knowledge associated with biodiversity, innovations, world views, values and practices of Indigenous Peoples and local communities are respected, and documented and preserved with their free, prior and informed consent,²⁶ including through their full and effective participation in decision-making, in accordance with relevant national legislation, international instruments, including the United Nations Declaration on the Rights of Indigenous Peoples, and human rights law, and takes note with appreciation of the goal of providing up to 20 per cent of the programming share of the Global Biodiversity Framework Fund by 2030 to support action by Indigenous Peoples and local communities for the conservation, restoration, sustainable use and management of biodiversity;

17. *Recalls* decision 16/6 entitled “Role of people of African descent, comprising collectives embodying traditional lifestyles, in the implementation of the

²⁶ In this framework, free, prior and informed consent refers to the tripartite terminology of “prior and informed consent” or “free, prior and informed consent” or “approval and involvement”.

Convention on Biological Diversity”, adopted at the sixteenth meeting of the Conference of the Parties to the Convention on Biological Diversity;

18. *Urges* Parties to the Convention to ensure the coherence and complementarity of the Kunming-Montreal Global Biodiversity Framework with other existing or upcoming international processes, in particular with regard to the 2030 Agenda, the Paris Agreement, and other related processes, frameworks and strategies, and reiterates the invitation to the other multilateral environmental agreements, including biodiversity-related conventions and the Rio conventions, relevant international organizations and their programmes, and other relevant processes to actively participate in their implementation;

19. *Encourages* support for the Sharm el-Sheikh to Kunming Action Agenda for Nature and People, which is aimed at collecting, coordinating and celebrating actions in support of biodiversity conservation and its sustainable use, encourages all relevant stakeholders, including Indigenous Peoples and local communities and the private sector, to consider developing biodiversity commitments, and invites relevant agencies, funds and programmes of the United Nations system and other relevant institutions and intergovernmental organizations, where relevant, to support the implementation of the Action Agenda;

20. *Welcomes* the adoption of the Global Action Plan on Biodiversity and Health at the sixteenth meeting of the Conference of the Parties to the Convention on Biological Diversity, as a voluntary plan for supporting the implementation of the Kunming-Montreal Global Biodiversity Framework, and encourages Parties to implement it when mainstreaming biodiversity and health interlinkages and to provide information on their implementing activities and the result thereof, including in national reports, as appropriate;

21. *Notes* that the COVID-19 pandemic has exacerbated pre-existing inequalities and challenges for the implementation of the Convention and further highlighted that the loss and degradation of biodiversity increases the risk of zoonotic disease spillover from wildlife to people and urges Parties to the Convention and all other relevant stakeholders to continue to mainstream biodiversity into COVID-19 recovery plans and in plans aimed at reducing the risk of future pandemics, emphasizes the importance of a One Health approach and other holistic approaches that deliver multiple benefits to the health and well-being of people and planet, that would further strengthen the capacity to address biodiversity loss, prevent and respond to the emergence of diseases, including zoonotic infections, and future pandemics, and contribute to reducing the adverse impacts of climate change, calls for transformative actions from all relevant stakeholders and adequate and sufficient means of implementation, particularly for developing countries, to ensure the full implementation of the Convention to halt and reverse biodiversity loss, and welcomes the financial commitments and initiatives that have been announced from governments, organizations and the private sector that contribute to biodiversity conservation, restoration and sustainable use and maintain the political momentum for the implementation of the Kunming-Montreal Global Biodiversity Framework;

22. *Notes with concern* the limited progress made in the implementation of the three objectives of the Convention, namely, the conservation of biological diversity, the sustainable use of its components and the fair and equitable sharing of the benefits arising out of the utilization of genetic resources, as well as the limited progress made in the implementation of the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from Their Utilization;

23. *Notes* the limited progress made in mainstreaming article 8 (j) of the Convention and related provisions into various areas of work under the Convention,

takes note with appreciation of decisions 15/10 and 16/4 of the Conference of the Parties to the Convention to develop and adopt a new programme of work on article 8 (j) and other provisions of the Convention related to Indigenous Peoples and local communities to 2030 aligned with the Kunming-Montreal Global Biodiversity Framework, with the full and effective participation of Indigenous Peoples and local communities, and in this regard invites the secretariat of the Convention, through the Secretary-General, to report on the progress made by the Subsidiary Body on Article 8 (j) and Other Provisions of the Convention on Biological Diversity related to Indigenous Peoples and Local Communities when reporting on the implementation of the present resolution to the General Assembly;

24. *Welcomes* the decision to establish the Subsidiary Body on Article 8 (j) and Other Provisions of the Convention on Biological Diversity related to Indigenous Peoples and Local Communities, which met for the first time from 27 to 30 October 2025 in Panama City, and encourages Parties, other Governments and relevant organizations to provide additional support to representatives of Indigenous Peoples and local communities, to participate effectively in its meetings;

25. *Encourages* the respective Parties, in close collaboration with the relevant stakeholders, to take concrete measures towards achieving and coherently and effectively implementing the objectives of the Convention and its Protocols, and calls upon parties and stakeholders to strengthen international cooperation measures for the fulfilment of obligations contained in the Convention and its protocols, including through comprehensively addressing at all levels the difficulties that may impede their implementation;

26. *Highlights* the importance of Parties raising high-level political engagement for the achievement of the objectives of the Convention and the Kunming-Montreal Global Biodiversity Framework adopted at the fifteenth session of the Conference of the Parties, and the related Goals and targets of the 2030 Agenda;

27. *Invites* all Parties, relevant departments of the Secretariat, the specialized agencies, funds and programmes of the United Nations system and the regional commissions to continue to contribute to the achievement of the objectives of the Convention;

28. *Notes* the important role of the United Nations Environment Management Group in enhancing inter-agency coordination to support the implementation of the Kunming-Montreal Global Biodiversity Framework;

29. *Stresses* the importance of mainstreaming biodiversity across government and society for achieving the objectives of the Convention, as well as the mission, vision, goals and targets of the Kunming-Montreal Global Biodiversity Framework adopted at the fifteenth session of the Conference of the Parties, and urges all relevant stakeholders to mainstream biodiversity in all relevant sectors;

30. *Calls upon* Governments and all stakeholders to take appropriate measures to mainstream consideration of the socioeconomic impacts and benefits of the conservation and sustainable use of biodiversity and its components, as well as ecosystems that provide essential services, into relevant programmes and policies at all levels, in accordance with national legislation, circumstances and priorities;

31. *Stresses* the importance of mainstreaming biodiversity in the implementation of the 2030 Agenda as part of national implementation plans for the Sustainable Development Goals, in particular all biodiversity-related Goals and targets;

32. *Recognizes* that integrating biodiversity considerations into sectoral and cross-sectoral policies, plans and programmes at all levels is critical for harnessing the benefits of enhanced synergies and policy coherence;

33. *Welcomes* the decisions of the Parties to the Convention to better mainstream biodiversity and to take specific actions tailored to national needs and circumstances, and in line with other relevant international agreements, including in key sectors, such as agriculture, forestry, fisheries and tourism, as well as health, energy, mining, infrastructure, manufacturing and processing sectors, which are crucial for addressing biodiversity loss, bearing in mind the impact of these sectors on biodiversity;

34. *Recalls* its resolution [77/321](#) of 1 August 2023 entitled “Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction”, and welcomes the upcoming entry into force on 17 January 2026 of the Agreement;

35. *Emphasizes* the importance of ending illegal, unreported and unregulated fishing, and welcomes the Agreement on Fisheries Subsidies reached at the Twelfth Ministerial Conference of the World Trade Organization;

36. *Notes* the critical role of biodiversity and ecosystem functions and services for climate change adaptation, mitigation and disaster risk reduction, including by adding resilience to fragile ecosystems and making them less vulnerable, and that continued climate change will have predominantly adverse and often irreversible impacts on many ecosystems and their functions and services, with significant negative economic, social and cultural consequences, and notes in this regard decision 16/22 on biodiversity and climate change, adopted at the sixteenth meeting of the Conference of the Parties to the Convention on Biological Diversity;

37. *Urges* the Parties to the Convention to facilitate the transfer of technology on mutually agreed terms for the effective implementation of the Convention in accordance with article 16 and other relevant provisions of the Convention, and in this regard welcomes the decision to establish an informal advisory group on technical and scientific cooperation, to provide strategic advice on practical measures, tools and opportunities to promote and facilitate technical and scientific cooperation in accordance with the terms of reference contained in annex III to decision 15/8 of the Conference of the Parties to the Convention;

38. *Urges* parties and invites other Governments and relevant organizations to recognize the important role of, and to promote, science, technology and innovation in supporting the implementation of the goals and targets of the Kunming-Montreal Global Biodiversity Framework towards achieving the 2050 Vision for Biodiversity of living in harmony with nature;

39. *Recalls* decision 15/11 of the Conference of the Parties to the Convention, entitled “Gender Plan of Action”, which recognizes the importance of advancing efforts to achieve gender equality and the empowerment of all women and girls and of supporting and advancing gender mainstreaming and gender-responsive implementation of the Kunming-Montreal Global Biodiversity Framework, and encourages Parties to promote the mainstreaming of a gender perspective in developing, implementing and revising their national, and where appropriate, regional and subnational biodiversity strategies and action plans and equivalent instruments in implementing the three objectives of the Convention, and also recognizes the need to enhance cooperation on capacity-building in order to support Parties in this process;

40. *Notes* decision 16/35 adopted at the sixteenth meeting of the Conference of the Parties to the Convention on Biological Diversity, which notes the work of the Joint Liaison Group of the Rio Conventions and the Liaison Group of Biodiversity-related Conventions for enhancing cooperation and synergies among the conventions, invites the Parties to the Rio conventions to strengthen synergies and cooperation in the implementation of each convention, in accordance with national circumstances and priorities, and further invites Parties and other Governments to continue to enhance synergies among the biodiversity-related conventions, in line with options for action at the national level provided in decision XIII/24, in accordance with their national circumstances and priorities;

41. *Invites* countries that have not yet done so to ratify or accede to the Convention;

42. *Invites* Parties to the Convention to ratify or accede to the Nagoya Protocol, and invites the Executive Secretary of the Convention and the Global Environment Facility, within its mandate as the financial mechanism of the Convention, in collaboration with relevant organizations, to continue to support capacity-building and development activities to support the ratification and implementation of the Protocol;

43. *Also invites* Parties to the Convention to consider, as appropriate, ratifying or acceding to the Cartagena Protocol;

44. *Invites* Parties to the Cartagena Protocol to consider, as appropriate, ratifying or acceding to the Nagoya-Kuala Lumpur Supplementary Protocol on Liability and Redress to the Cartagena Protocol on Biosafety;

45. *Notes* that increasing investments in nature-based solutions, ecosystem-based approaches and other management and conservation approaches, in line with resolution 5/5 of the United Nations Environment Assembly, has the potential to cost-effectively support biodiversity conservation, restoration and its sustainable use, to help advance climate mitigation and adaptation and to reduce adverse impacts of climate change and to slow, halt and even reverse some aspects of biodiversity and ecosystem loss, and therefore invites all relevant stakeholders to consider the opportunities it presents;

46. *Stresses* the importance of engaging Indigenous Peoples and local communities, women, youth, civil society, local governments and authorities, academia, the business and financial sectors and other relevant stakeholders to support action towards the implementation of the Kunming-Montreal Global Biodiversity Framework, the 2050 Vision for Biodiversity and the three objectives of the Convention, and invites them to align their practices more explicitly with the objectives of the Convention, including through partnerships, in accordance with national legislation, circumstances and priorities;

47. *Encourages* the private sector, in particular business and financial institutions, to progressively reduce negative impacts on biodiversity, increase positive impacts, reduce biodiversity-related risks to business and financial institutions, and promote actions to ensure sustainable patterns of production, in this regard stresses the importance of the work of the Global Partnership for Business and Biodiversity, and notes other related and complementary initiatives;

48. *Reaffirms* the commitment at the very heart of the 2030 Agenda to leave no one behind and commit to taking more tangible steps to support people in vulnerable situations and the most vulnerable countries and to reach the furthest behind first;

49. *Requests the Secretary-General to submit to the General Assembly, at its eighty-first session, a report on the implementation of the present resolution, progress in the implementation of the Convention on Biological Diversity and the Kunming-Montreal Global Biodiversity Framework, and decides to include in the provisional agenda of its eighty-first session, under the item entitled “Sustainable development”, the sub-item entitled “Convention on Biological Diversity”.*

*64th plenary meeting
15 December 2025*
